

Drumshanbo College of Further Education,
Drumshanbo, Co Leitrim

Course Title: Renewable Energy

Course Award Title: Construction Technology

Course Award: FETEC Level 5 (ccont)

Course Duration: One Year

Course Coordinator: Sean Wynne

Course Location: The course is organised by Co. Leitrim V.E.C. in conjunction with Ddrumshanbo Enterprise Centre. This course will be run primarily in Drumshanbo College of Further Education, Drumshanbo, Co. Leitrim. Some of the practical classes will be held at off-site locations.

Age: 18+ (mature students welcome)

Modules include:

- Biomass systems
- Solar thermal systems
- Energy systems, services and terminology
- Wind technology
- Wind technology practical
- Communications
- Information Technology Skills
- Work Experience

Course Description: This course aims to respond to the rapidly expanding interest in renewable energy systems in the North-West and within Ireland as a whole. The course focuses on renewable energy (solar, wind and biomass) systems and Information Technology. There are numerous emerging opportunities within the renewable energy sector, e.g. the local LABS energy hub, which can be availed of in order to provide students with a vehicle for their return to work where this is both necessary and desirable

NOTE

Information evening – Thursday MAY 19TH (6:00-8:00pm) Drumshanbo College of Further Education, Drumshanbo, Co Leitrim
